

One of the advantages of the **VEO Active Series** is that it comes with a removable camera insert so you can leave your kit at home and use it as an everyday rucksack. From speaking to photographers, we know that many would like a second insert that they can keep a separate kit in and just swap in seconds.

As a result, we've had the boffins back in head office physically checking which VEO BIB F bags will fit into each VEO Active and the results are in:

| Model W x D x H | VEO Active 42M 250 x 150 x 420mm | VEO Active 46 270 x 160 x 460mm | VEO Active 49 310 x 180 x 490mm | VEO Active 53 310 x 180 x 530mm |
|----------------------------------|-------------------------------------|------------------------------------|------------------------------------|------------------------------------|
| VEO BIB F27 240 x 145 x 315mm | ✓ | ✓ | ✓ | ✓ |
| VEO BIB F28 315 x 195 x 235mm | - | - | ✓ | x2 |
| VEO BIB F33 315 x 195 x 315mm | - | - | ✓ | ✓ |
| VEO BIB F36 320 x 195 x 410mm | - | - | ✓ | ✓ |
