23°, 50° & 80°

Universal Clamps
for any rifle

Rubber & Spiked Feet
& easy clean leg locks

"GM" MODELS

"GM" models is perfect for the highest calibre rifles and includes an **Endeavor GM-70** Gun Mount, a universal rifle clamp that can fit any forestock from 30mm to 70mm, with an oversized handle that is easy to use in any conditions and a rubber inner to protect your rifle. The clamp is attached with a 3/8" thread and includes an Arca compatible base so it can be used on any Arca compatible tripod.

"GM 65" MODELS

"GM 65" models are designed to be up to 45% lighter to make them easier to carry over longer distances, without compromising on precision. They include the lighter Endeavor GM-65 which opens to 65mm at the top and 75mm at the base to offer a secure hold on any rifle that narrows towards the barrel. The clamp is attached with a 1/4" thread and includes an Arca compatible base.

TIP

If you want the tripod to hold your rifle securely, but need to adjust your aim quickly, then simply leave the levelling system slightly loose.
