A range of stylish Arca compatible low profile ball heads for any tripod, from travel to full sized

LBP-S PROFESSIONAL DUAL AXIS BALL HEADS

- 1 Traditional pan-axis at the base of the tripod head
- 2 Traditional pan-axis lock
- 3 Ball locking knob
- 4 Friction control
- 5 Second pan-axis under quick release lamp.
- 6 Second pan-axis lock
- 7 Quick release plate clamp
- 8 Arca compatible QS-45H quick release plate

What is the benefit of a "Dual Axis Ball Head"

The key benefit of the second pan-axis is that it allows you to **level your camera in seconds on any terrain** using the ball lock, and then reframe your shot or create perfect panoramas using the second pan-axis.
