Optic Guard DLX H

Optic Guard Clip DLX

The Optic Guard Clip DLX is a quick release clip that attaches to your optics and allows you to use any of the Optic Guard solutions, and switch between straps in seconds with it's extended tether that allows you to attach your eyepiece covers to your optics. It is also available separately and this allows any strap to be set up and used with the Optic Guard System.

Attach the Optic Guard Clip to any strap

Attach the Optic Guard Tether to your binoculars

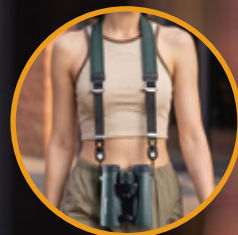

Slot the bean into the Connect Clip and pull down

Pull the orange tab 45° and pull from the Connect Clip

Connect 3N1 NS

For everyday use the Connect 3N1 Neck Strap is designed for comfort, with a non-slip neoprene strap that contours round the neck, and it can be converted to a wrist strap or backpack strap to give you more options for your trip.
