

QUICK RELEASE STRAPS

AVAILABLE IN THREE STYLES

PRO

Shoulder straps fitted with a universal Arca compatible clamp quick release system that are designed to carry up to two professional cameras (or a long lens) over extended photoshoots, and attach to a tripod in seconds.

CONNECT

A series that incorporates a lightweight and universal quick release system for any camera or binocular. These come in a choice of neck straps, wrist straps, backpack straps, or just as a connector to make any strap a quick release strap.

OPTIC GUARD

Binocular harnesses that allow you to carry and use your binoculars in comfort over extended periods. These incorporate the same quick release clip design as the Connect System, so you can choose a strap from that range to maximise the choice available.

QUICK RELEASE SYSTEMS

PRO STRAPS

Pro straps are designed to carry up to two pro cameras across the shoulder for extended periods, incorporating a universal Arca compatible quick release system.

Attach your Arca compatible plate to the base of your camera

The plate includes an **optional** thread for a solid grip. If used, take care not to damage base of your camera

Attach the clamp to your Arca compatible plate

Clip your strap to the plate and attach the Connect safety tether to your camera, and you're ready to go

CONNECT STRAPS & OPTIC GUARD

The Connect and Optic Guard quick release system is a lightweight, interchangeable system that allows you choose the perfect strap for every occasion.

Attach your Connect or Optic Guard tethers to your camera strap attachment points

To attach your camera, slot the bean on the tether into the clip and pull down

To release your camera, pull the orange tab to 45° and pull out of the clip

Clips are available separately to make any strap into a quick release strap

PROFESSIONAL STRAPS

PRO Straps Series are designed to carry up to 2 heavier, pro level cameras in comfort and close to hand. Both come fitted with Vanguard's Quick Detachable Locking System which includes an Arca compatible clamp and plate to connect to your camera, and an innovative quick release push button to attach the clamp to the strap, with safety tethers for additional security. Being Arca compatible, this allows you to remove the clamp and attach your camera to a tripod seconds, key on shoots where time is of the essence.

PRO 2N1 STRAP

Dual harness design for carrying up to two cameras

- ▶ Arca compatible quick release system
- ▶ Designed to carry two pro level cameras against the hip
- ▶ Can be split to carry one pro level camera when needed
- ▶ Pads, sternum strap and rear strap for maximum comfort
- ▶ Easy to adjust length, with clips to keep the camera in position
- ▶ Load capacity of up to 150kg*
- ▶ Connect Safety Tethers for added security

PRO STRAP

Shoulder harness for carrying a single camera

- ▶ Arca compatible quick release system
- ▶ Designed to carry one pro level camera on left shoulder
- ▶ Pad and underarm stabilizer strap for maximum comfort
- ▶ Easy to adjust length, with clips to keep the camera in position
- ▶ Load capacity of up to 150kg*
- ▶ Connect Safety Tethers for added security

* Load capacity based on vertical hanging tests

3-IN-1 CAMERA STRAP

Designed for ultimate flexibility, this clever 3-in-1 multi-functional camera strap allows you to seamlessly switch between three practical modes – neck (or shoulder) strap, wrist strap, and backpack straps - with zero hassle. It adapts instantly to your needs: whether you require the secure, hands-free convenience of a neck strap strap for on-the-go shooting, the reassuring grip of a wrist strap for capturing fast-paced moments, or the handy backpack mode to attach your camera or binoculars directly to your backpack rather than wearing a separate strap on the go.

CONNECT 3N1 NS

- ▶ Super comfortable neoprene neck strap with non-slip inner lining
- ▶ Includes universal Connect Clip quick release system that fits any camera or binoculars
- ▶ Each pack includes 4x Connect Tethers that allow you to attach up to two cameras
- ▶ The neck strap is available in either 38mm or 30mm wide for your choice of comfort
- ▶ Load capacity up to 90kg*

Strap Width: 38mm/30mm

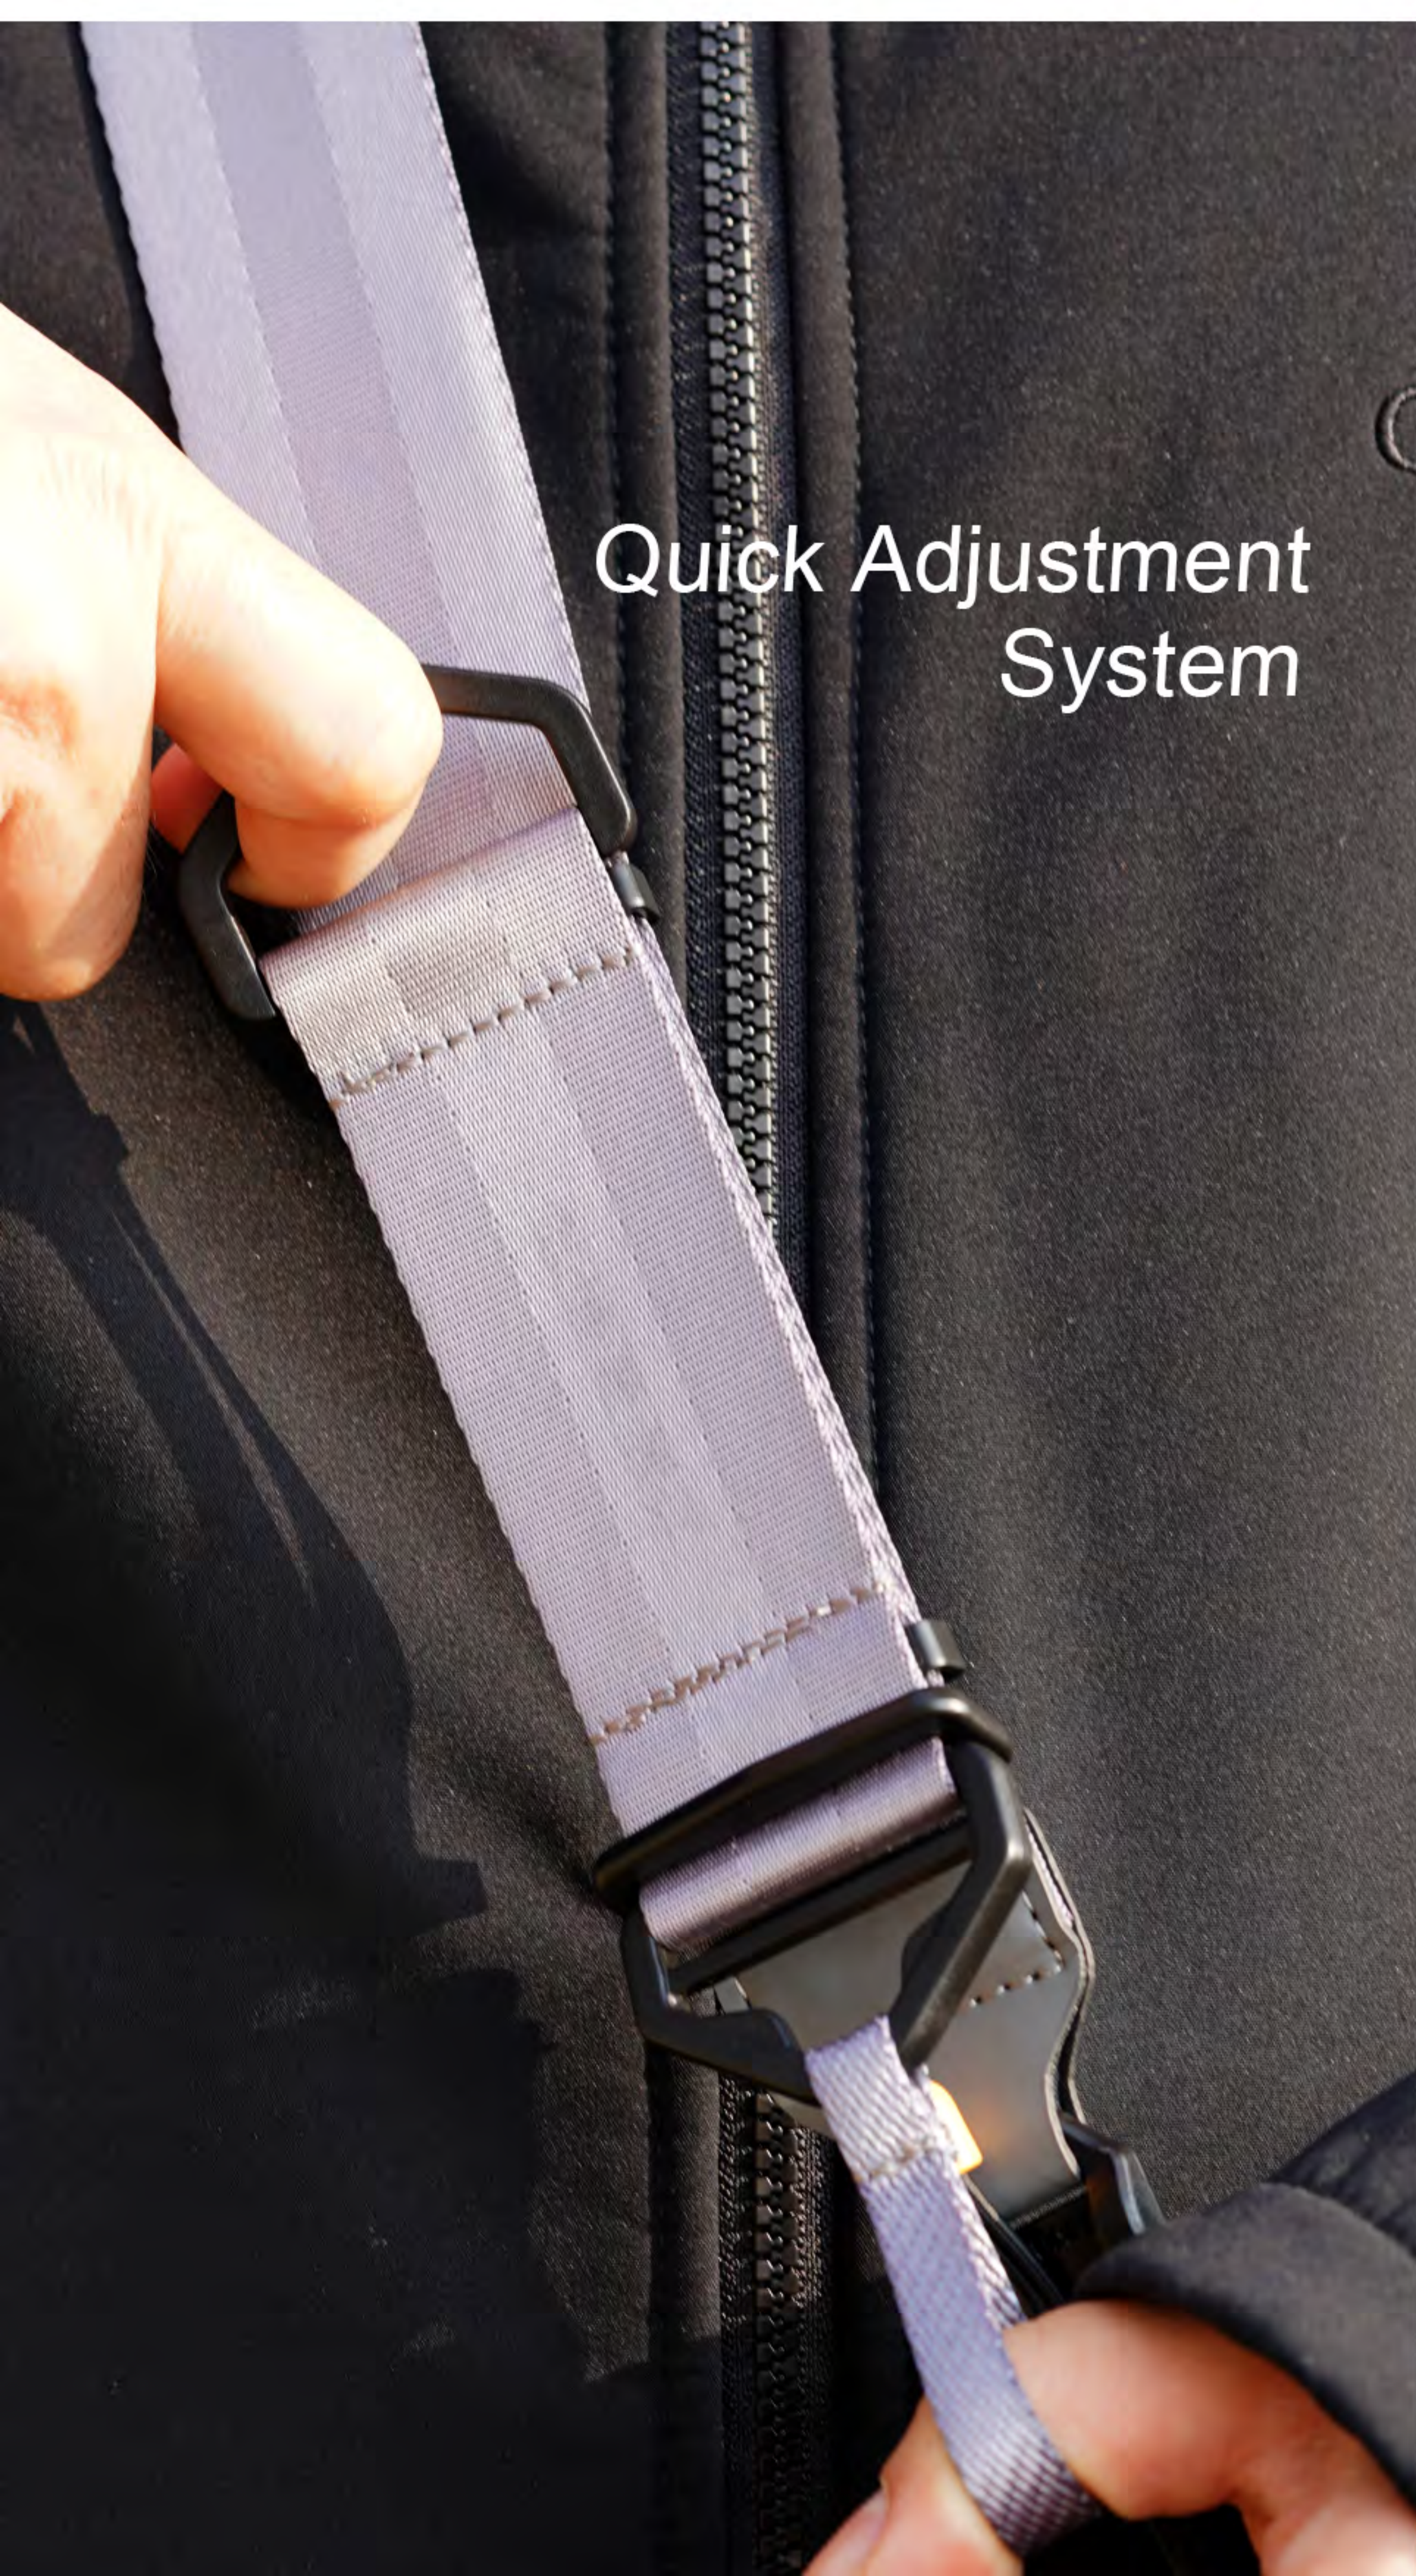

Aluminium Anchor Link

4x Connect Tethers in each pack

* Load capacity based on vertical hanging tests

QUICK ADJUST NECK STRAP

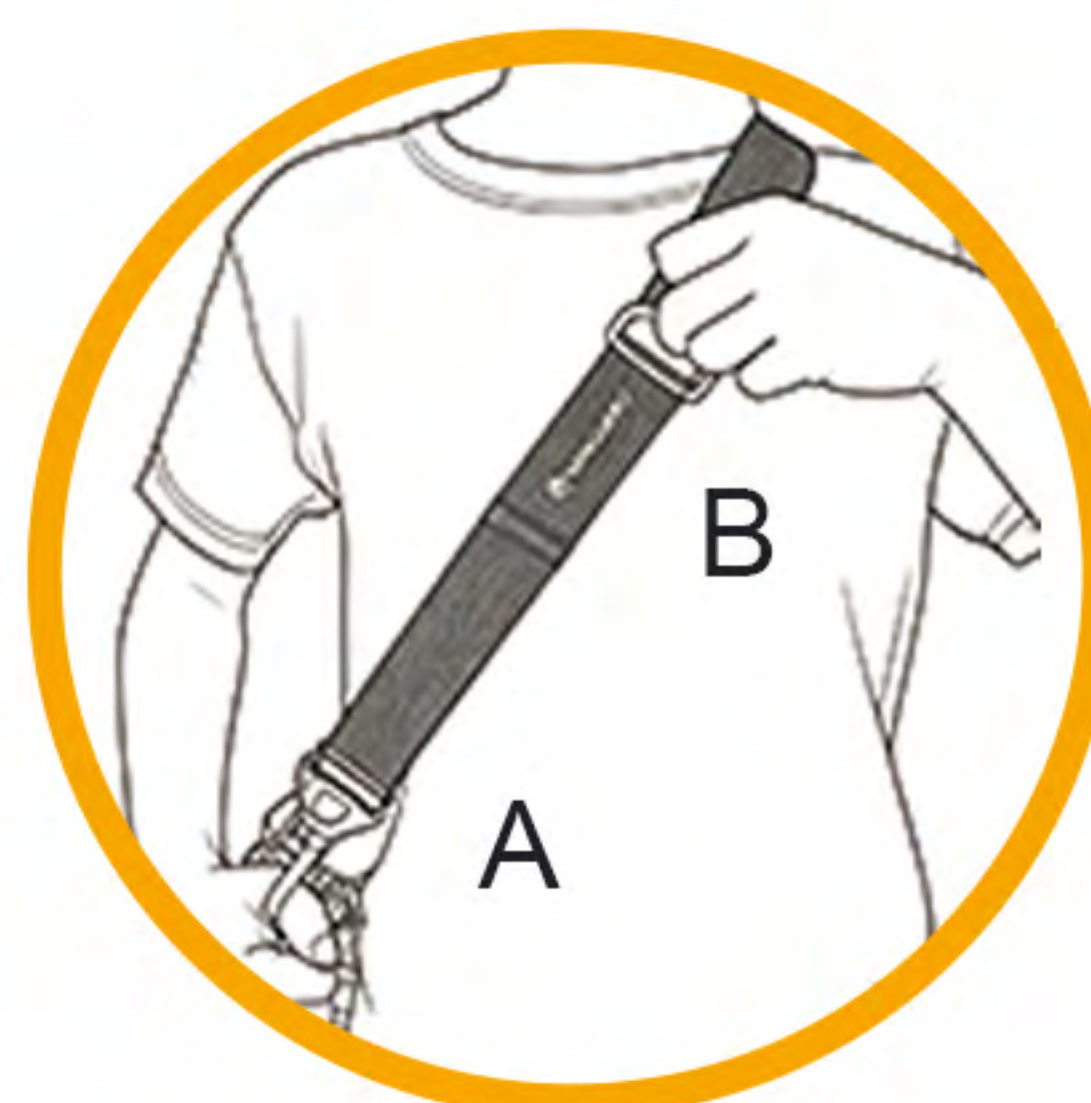

The Connect QCK NS strap is ideal for professional and enthusiast photographers who want a versatile, comfortable, and stylish camera strap where the length can be adjusted fast, ensuring you don't miss a fleeting moment. This 38mm neck strap works with a wide variety of camera and lens setups, and allows quick, secure gear changes with ease.

CONNECT QCK NS

- ▶ Includes universal Connect Clip quick release system that fits any camera or binoculars
- ▶ Each pack includes 4x Connect Tethers that allow you to attach up to two cameras
- ▶ Load capacity up to 90kg*

Strap Width: 38mm

Hold the webbing tag (A) and pull up the D-ring (B) to tighten

Pull the webbing tag (A) down to extend the strap

*Load capacity based on vertical hanging tests

NEOPRENE NECK STRAP

Connect NEO Neck Strap is the most comfortable solution for carrying your camera or binoculars. The soft neoprene strap contours to your neck to spread the weight, or it can be worn sling style or across one shoulder for quick access to your binoculars or camera, or any other suitable device.

CONNECT NEO NS

- ▶ Super comfortable neoprene neck strap with non-slip inner lining
- ▶ Includes universal Connect Clip quick release system that fits any camera or binoculars
- ▶ Each pack includes 4x Connect Tethers that allow you to attach up to two cameras
- ▶ Load capacity up to 90kg*

Strap Width: 38mm/30mm

4x Connect Tethers in
each pack

*Load capacity based on vertical hanging tests

EVERYDAY NECK STRAP

Say goodbye to bulky, uncomfortable camera carriers. Whether you're exploring city streets, hiking mountain trails, or shooting indoor events, it keeps your camera close at hand – secure, accessible, and comfortable from dawn till dusk.

CONNECT NS

- ▶ Lightweight neck straps available in either 38mm or 25mm wide for your choice of comfort
- ▶ Includes universal Connect Clip quick release system that fits any camera or binoculars
- ▶ Each pack includes 4x Connect Tethers that allow you to attach up to two cameras
- ▶ Load capacity up to 90KG*

Strap Width: 38mm/25mm

each pack

*Load capacity based on vertical hanging tests

EVERYDAY WRIST STRAP

Universal camera wrist straps with all-day comfort, durable build, and non-slip security. Featuring the universal Connect Clip system and fully adjustable fits, they work seamlessly with any camera, binoculars or monocular. Perfect for photographers and birdwatchers who need the fastest access on the go, with the security of a strap.

Comfortable and fast fit to your wrist

CONNECT WS

- ▶ Designed to fit all wrist sizes, the strap offers a secure, comfortable fit that delivers fast on-the-go access to your gear.
- ▶ Includes universal Connect Clip quick release system that fits any camera or binoculars
- ▶ Each pack includes 2x Connect Tether

CONNECT BACKPACK STRAP

CONNECT BACKPACK Straps attach to your backpack's shoulder straps via universal clips that can be attached to D-ring or webbing, and the Connect Clip System then attaches your camera or binoculars

Universal backpack clip

Clip the strap to the D-ring (or webbing) of your backpack

Available in packs of two

OPTIC GUARD HARNESS

A binocular harness maximises comfort and reduces fatigue when using your binoculars over longer periods, and the Vanguard Optic Guard series includes a standard harness (H), and a Deluxe (DLX H). Both incorporate the universal Connect Clip quick release system that allows them to be used with any of the Connect neck and wrist straps.

OPTIC GUARD DLX H

- ▶ Elasticated straps that can be adjusted for maximum comfort
- ▶ Wide neoprene shoulder harness with non-slip inner lining for maximum comfort
- ▶ Removable chest strap to hold the shoulder harness together or secure your binoculars on the move

OPTIC GUARD H

- ▶ Patented clip lock rapid release system
 - ▶ Elasticated straps that can be adjusted for maximum comfort
- Silicon pad on back to spread the weight

CONNECT CLIP

Turn any strap into a quick release strap for your camera, with standard 60mm tethers

OPTIC GUARD CLIP

Turn any strap into a quick release strap for your binoculars, with extended 80mm tethers to allow you to fit your eyepiece covers
